# QA Services

We can provide you the best solutions and more control over the testing process, resulting in higher productivity of your existing teams and releases. Outsourcing testing work to specialized service providers is always the best solution for cost-cutting and building a high quality competitive product in the market.

## Our Team

We understand that the people are the biggest asset of a software company. Keeping this in mind, we provide ample opportunity to grow professionally, work in an environment that each individual is comfortable in as well as relax during work.

Our team members work in conjunction with each other to provide the client with an efficient product within the predefined time frame.

### Marketing Team

Gathering requirements may sound simple but, essentially, is the most important piece to any project management. We have a team of proficient professionals who are well-versed in their respective fields. They gather all the client requirements efficiently to make them satisfied and contented. Once the client's requirements are converted into technical requirements, then the implementation starts.

### Designing Team

Whether it is representing your brand true to its spirit on a website, creating mobile app interface or developing customized advertisement content, we have got the expertise in-house. Our graphic and web designers let their designs speak for themselves. It is the work of our graphics team which makes our project look simple and unique. Our designers are expert in tools like Photoshop, Adobe Illustrator, Corel, Flash and Dreamweaver.

### Development Team

Equipped with the latest technologies and in-depth industry experience, our developers are fully capable of delivering highly productive, scalable and high-end solutions to the clients. Our talented and skilled professionals have minimum 3 years of the industry experience. We take extra care to make sure that our developers are exposed to the latest technologies so that they stay informed and enthusiastic about projects.

### QA Team

The maximum responsibility is shouldered by the QA team. The projects developed by the developers are tested at various stages by the QA team. It is the QA team which ensures the delivery of an efficient product close to the client's expectations. Our team is well-versed with the black box, white box and automated testing techniques.

# Our Happy Clients

Dextrous occupies a special position as a Web Development Company services to well over 1450 domestic clients and 15 international business partners.

The background is a vibrant blue sky. In the upper left, there are several concentric circles in shades of blue and white, resembling a stylized sun or moon. To the right of these circles, four black birds are flying in a V-formation. In the lower right, two hot air balloons are floating: one is orange and yellow, and the other is blue and white with a red stripe. Below the balloons, several more black birds are flying. The bottom of the image features a range of stylized mountains in shades of grey and brown. A large, bright orange sun is partially obscured by the mountains on the left side.
